The lessons from field theory and Lewin's work in group dynamics have been incorporated into the development of practical approaches that could be applied by health practitioners to facilitate the process of change. These approaches include Lewin's formulation of action research and the three-step model. An action research approach involves analyzing the current situation of an organization ...

[The Wright Brothers and the First Flight of an Airplane](#)

History. Learn more about the subject of history, which is broadly defined as the study of past events. Due to the broad nature of the concept, most historians narrow their scope by focusing on a particular time period, a particular country or region, a particular person, group, or individual person, a particular theme, or any combination of those categories.

.
