Used Manual Lathes. In a metalworking lathe, metal is removed from the workpiece using a hardened cutting tool. This is usually fixed to a solid moveable mounting, either a tool-post or a turret. Which is then moved against the workpiece using handwheels and/or computer-controlled motors. The tool-post operates lead-screws that accurately position the tool in a variety of planes. The tool-post ...

Erica and Mitch Wysong are truly responsible breeders dedicated to bringing healthy puppies into the arms of loving families. It was well worth the nine-hour drive from the East Coast to pick up my English Bulldog puppy, especially when I toured their home and grounds and saw the family atmosphere in which they raise their puppies. If you are considering adding a stubborn, loveable, healthy ...
